WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

HOW TO USE THE GUIDE

You can go through the guide from start to finish or you can use it to get knowledge as required.

Best viewed in full screen mode and on tablets or phone using the Acrobat app.

From the index you can click the titles to go to relevant sections. Clicking the SCANGRIP logo always takes you back to the index.

The products are matched to the most relevant customers.
Use the segment overview to understand customer types and see most popular products.

Click the  to watch product videos when available.

The knowledge section at the end will give you more detailed information on technical terms and concepts.

A PRODUCT FOR EVERY NEED

The SCANGRIP line-up includes products for many different applications and types of end-users. This guide is made to support our partners in selling SCANGRIP Work lights.

You will get...

- An overview of relevant work light products for the Automotive, Industrial and Construction segments, linking the products with the typical end-users and highlighting key differentiators.
- Relevant sales tools to support product demonstration and presentations including integrated links to YouTube product presentations.

Our goal is to give partner organisations easy guidance on how to sell SCANGRIP in an efficient and straightforward way, supporting the ambition of creating attractive business opportunities for our partners.

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

THE SCANGRIP WAY

Creating light and business opportunities

As Europe's leading manufacturer of innovative work lights, SCANGRIP provides the strongest and most comprehensive range of lighting solutions on the market.

We want to be a long-term partner with the primary objective to provide attractive business opportunities that strengthen your market position and expand your business.

As our customer you will be able to benefit from our flexible, global supply chain and select exactly the business setup you want in terms of scope, complexity and logistics.

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

SCANGRIP®
INNOVATION FROM DENMARK

HULTAFORS GROUP

SCANGRIP part of HULTAFORS GROUP

In 2021, SCANGRIP became a part of HULTAFORS GROUP – a global company offering a unique portfolio of premium brands within personal protection, tools, and other equipment for discerning craftsmen.

Just like SCANGRIP, Hultafors has a long history of innovation and high-quality products for example the iconic folding rule.

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

GO GREEN

Energy Saving - Long Lifetime - A Better Choice for the Climate

SCANGRIP is first-mover when it comes to taking advantage of new technology to develop high quality, efficient and durable work lights.

Even when we started making work lights a long time ago, we worked with high-efficient, energy-saving LEDs – and today all our lighting solutions are developed to be energy saving, built-to-last and with a long lifetime.

This is what we call **GO GREEN**

For more Information: [SCANGRIP.COM/GO-GREEN](https://www.scangrip.com/go-green)

CORDLESS ALLIANCE SYSTEM - CAS

One battery, many solutions

Cordless Alliance System is a cross-manufacturer battery pack system of leading power tools brand 100% compatibility for over 300 machines, alone in the 18V class.

Since 2009 battery packs of any METABO generation are 100% compatible with each other – today called the CAS system.

SCANGRIP is one of 35 manufactures in the CAS group, with speciality in professional work lights applications to the Automotive, Industrial and Construction segments.

WORKLIGHTS PRODUCT LINE

SCANGRIP®

INNOVATION FROM DENMARK

Lighting solutions for high performance

- Sophisticated work lights made for the real professionals
- Latest technology for best performance
- Extreme durability and functional design
- Extended warranty

3

years
warranty

PATENT PROTECTED

LITE PRODUCT LINE

SCANGRIP®

INNOVATION FROM DENMARK

Designed to do the job

- No-nonsense work lights
- Excellent value for money
- Taking advantage of proven technologies
- Streamlined, functional and user-friendly design

CONNECT PRODUCT LINE

SCANGRIP®

INNOVATION FROM DENMARK

One lighting solution for all battery packs

- Work lights compatible with 18V/20V battery packs from all leading power tools brands
- Smart connector with BATTERY SAFETY SYSTEM
- Compatible with METABO/CAS battery system “no connector is required” 
- The CONNECT POWER SUPPLY for direct power providing unlimited availability to light

CONNECT PRODUCT LINE

INNOVATION FROM DENMARK

The CONNECT product range is one lighting solution for all 18V/20V battery packs

- We connect the world of power tool batteries and professional work lights and give the choice of CORDLESS or CORDED use of the work lights, depending on the work situation
- Compatible with METABO/CAS battery system “no connector is required” 
- SMART CONNECTORS with automatic discharge protection, overload protection and temperature surveillance
- SMART CONNECTORS approved by [TÜV Rheinland](https://www.tuv.com)
- The CONNECT POWER SUPPLY for direct power providing unlimited availability to light
- [FAQ](#)

HAND LAMPS

- Integrated work light and flashlight functionality in one
- Strong built-in magnetic holders and retractable hooks for handsfree operation
- Flexible lamp head allow tilts up to 180°

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

WHEN DO CUSTOMERS BUY WORK LIGHTS?

When you work as a distributor and sell to wholesalers and dealers, it is important to know when it is time to put special focus on work light products to your customers.

When you work as a wholesaler or dealer, it is important to know when your end-users are focusing on work light products.

	INDUSTRY	CONSTRUCTION
Local wholesaler/dealer...	the entire year, but promotions are often planned in Q2 and Q3	plan yearly activities Q2 and Q3
End-users buy work lights...	the entire year	from end Q3 to end of Q1

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

SCANGRIP®
INNOVATION FROM DENMARK

HOW TO SELL SCANGRIP TO THE END-USER?

Now you have knowledge on our product range and who the typical end-user is.

The most easy and successful way of selling SCANGRIP to the end-users, is to show them the products. To support this SCANGRIP have several solutions.

- Demo boxes
- Shop displays
- Custom-build promotions

Please agree practical details with your SCANGRIP
Area Sales Manager / Export Manager

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

SCANGRIP[®]
INNOVATION FROM DENMARK

HOW TO SELL SCANGRIP CONNECT TO THE END-USER?

To get the best presentation of the CONNECT series, we strongly recommend to display the products together with the Power Tools products

This will make it easy for the end-user to understand the freedom to use the CONNECT series together with all other battery brand in the 18V/20V range

WORK LIGHTS OF THE FUTURE

Designed by us. Manufactured by us.

SCANGRIP BUSINESS PARTNERSITE

The SCANGRIP BUSINESS PARTNERSITE is your online marketing platform where you will find everything you need to market the SCANGRIP products

Dealer buying from SCANGRIP FULL LINE DISTRIBUTORS can also get access to the BUSINESS PARTNERSITE

Please ask your SCANGRIP Area Sales Manager / Export Manager for your login and password

CUSTOM BUILD PROMOTIONS

- Design your own special promotion package and boost the sales
- Extremely fast and flexible
- Only 50 kits as minimum order quantity
- Production time from receipt of firm order, only one week
- Except very large and elongated products, all combinations of products can be wrapped
- Find already existing kits on [SCANGRIP BUSINESS PARTNERSITE](#)

USB CHARGERS & CABLES

- We are using the mini DC plug and USB-C because it's robust and reliable in relation to dirt and rough environment.
- USB cable is always included with rechargeable handlamps, headlamps, and flash light products.
- USB charger is included with selected products. Further information, use our web shop and look under "Electrical" in the product information.

[SCANGRIP.COM](https://www.scangrip.com)

TECHNICAL LIGHT GUIDE

Learn about technical lighting terms and become a LIGHTING EXPERT in only few minutes

You will always find both lumen and lux specifications for all SCANGRIP work lights

TECHNICAL LIGHTING TERMS

	Light source	LED type	High power (single chip) SMD Surface Mounted Device (single chip) COB Chip On Board (chip array)
	LED performance	Lumen per Watt (lm/W)	Energy efficacy. How much visible light you get compared to the amount of electricity consumed.
	Luminous Flux	Lumens (lm)	Light output. Total amount of luminous power emitted from the light source
	Illuminance	Lux (lux@0.5m)	Intensity of illumination on a surface
	Beam angle	Degrees (°)	Angle where the light intensity is half the intensity at direct on-axis view (0°)
	Beam distance	m	Distance from light providing 0.25 lux (same as light from the full moon on a clear night in an open field)
	CRI	Ra	Colour rendering index. Ability to reveal colours (0-100, daylight = 100)
	CCT	Kelvin [K]	Colour temperature
	Operating time	Hours (h)	Rechargeable: Time from fully charged to fully discharged Alkaline: Time until light output is at 10% measured after 3 seconds
	Charging time	Hours (h)	Time from fully discharged to fully charged battery
	Battery	Voltage (V) / Capacity (mAh) / Types	Types: Lithium-ion (Li-ion) or lithium-polymer (Li-Po) or Alkaline
	Protection class	Ingress Protection (IPXX)	First digit: protection level against solids/dust Second digit: protection level against water
	Impact protection	IK rating (IKXX)	Protection level against external mechanical impact
	Impact resistance	m	Resistance when dropped on concrete (drop test)

TECHNICAL LIGHT GUIDE

SCANGRIP work lights take advantage of the latest LED technology to ensure highest possible efficiency and minimal energy consumption.

INNOVATION FROM DENMARK

	Cable	Type / length	E.g. H05RN-F / 5m
	Operating voltage	Voltage (V) / Frequency (Hz)	Supply voltage is V AC or V DC. Frequency when AC operated
	Charging voltage	Voltage (V) / Current (mA)	Rated charging voltage and recommended charging current
	Power consumption	Max W	Total power consumption for unit
	Temperature	°C	Min/max ambient operation temperature
	Dimensions	mm	Length x width x height
	Net weight	g	Net weight

SCANGRIP USES ANSI/NEMA FL1 STANDARD FOR ALKALINE PRODUCTS

ELECTRICAL APPLIANCE CLASSES

	CLASS 1	Earth connection	Cabled work lights, e.g.: NOVA 5K
	CLASS 2	Double insulation	Cabled work lights with plastic housing, e.g. STAR LITE
	CLASS 3	Extra-low and safe voltage	Rechargeable work lights

SCANGRIP was the first lighting manufacturer in the world to develop a floodlight based on COB LED. Now, this has become standard all over the market.

Almost all SCANGRIP work lights are designed with high-efficient COB LEDs.

TECHNICAL LIGHT GUIDE

The first digit is the level of protection against hazardous parts and the ingress of solid foreign objects (dust).

The second digit reflects the level of protection against harmful ingress of water.

SCANGRIP lamps are specially developed for work use and undergo a wide range of tests to ensure high durability and long lifetime.

The vast majority of SCANGRIP work lights are rated with a high IP degree, IP54 or IP65, and are prepared for demanding, outdoor use.

INGRESS PROTECTION

Class is defined with an IP code IPXX

SOLIDS

WATER

1. Protected against solids greater than $\varnothing 50\text{mm}$ such as a hand.

2. Protected against solids greater than $\varnothing 12.5\text{mm}$ such as a finger.

3. Protected against solids greater than $\varnothing 2.5\text{mm}$ such as a screwdriver.

4. Protected against solids greater than $\varnothing 1\text{mm}$ such as a wire.

5. Dust protected. Limited ingress of dust permitted.

6. Totally dustproof.

1. Protected against vertically falling drops of water. Limited ingress permitted.

2. Protected against vertically falling drops of water by an incline of up to 15 degrees from the vertical. Limited ingress permitted.

3. Protected against sprays of water up to 60 degrees from the vertical. Limited ingress permitted for 3 minutes.

4. Protected against strong water splashes from all directions. Limited ingress permitted.

5. Protected against jet of water from all directions. Limited ingress permitted.

6. Water from heavy seas or water projected in powerful jets shall not enter the enclosure in harmful quantities.

7. Protection against the effects of short term water immersion between 15cm and 1m for 30 minutes.

8. Protection against long term immersion in water under pressure.

IP67

TECHNICAL LIGHT GUIDE

During the day, the sunlight will have different colour temperatures and change from warm to cold temperatures throughout the day.

The color temperature reflects if the light from the LED is warm or cold. As a rule of thumb warm color temperatures are below 4000K, while cold color temperatures are above 4000K.

Most SCANGRIP work lights are 6000 / 6500K equivalent to daylight from the sun which provides optimum working light. This color temperature is comfortable to the human eye during a long working day and provides a concentrated work light.

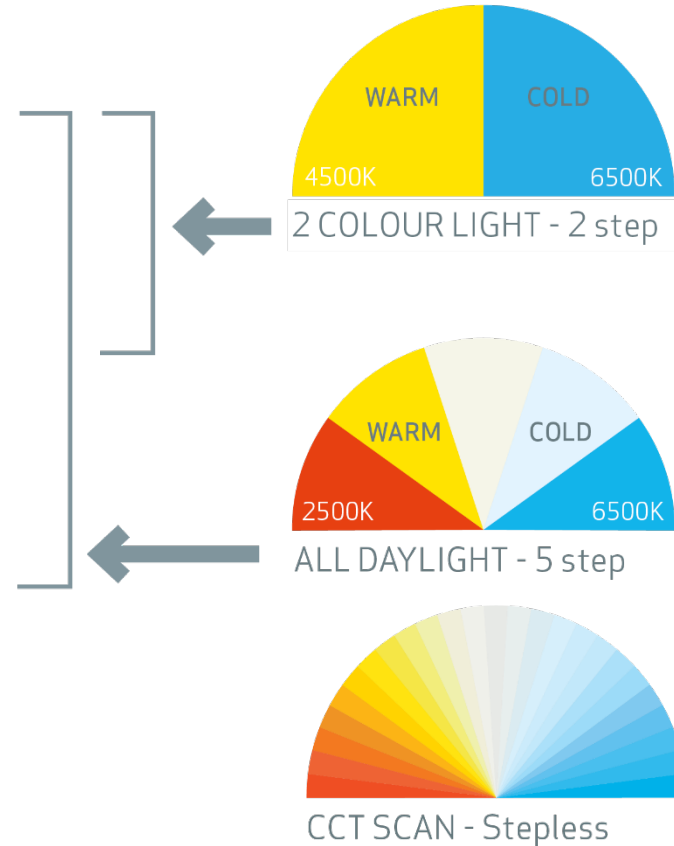

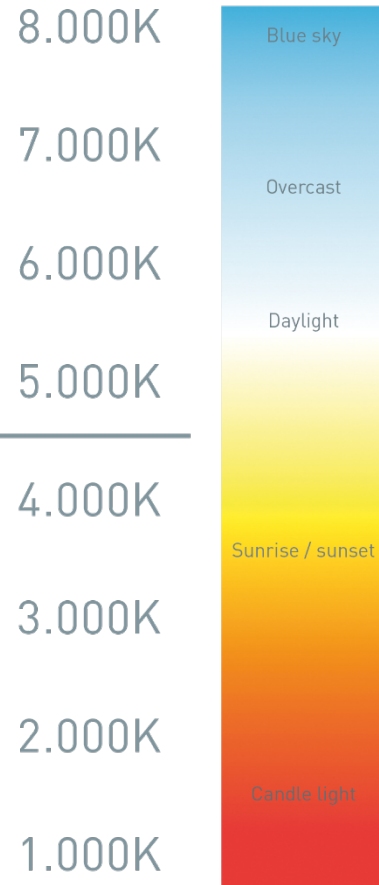

COLOR TEMPERATURE

Referred to as CCT.

The unit name is Kelvin, in abbreviated version only K.

COLD

WARM
