

SCANGRIP DIFFUSER XX-LARGE

Diffuser for soft illumination

ORIGINAL
SCANGRIP
SINCE 1906

The light diffuser is designed to spread and soften the light, enabling you to illuminate an entire workspace and avoiding hard shadows. It gives you increased functionality and new possibilities to adapt your work light even further to the specific work task.

The cover is incredibly smooth and lightweight. The strong built-in magnets make it easy and safe to mount the cover on your SCANGRIP lamp.

Fits:
03.6206 NOVA 12

- Spreads and softens the light avoiding hard shadows
- Illuminates the entire working area – even into the darkest corner
- Minimizes reflections and harsh light
- Reduces blinding

 Easy and safe mounting with strong magnets
